THE VANDERBILT ROADS.

THE RUMORED REORGANIZATION.

HAS SOME BASIS OF TRUTH.

Report That Will Be Submitted to Monon Stockholders Is Favorable as to Dividend Prospects.

The Journal has excellent authority for stating that M. E. Ingalls, president of the Big Four lines, will, at an early day, make New York city the home of himself and family. Changes are to be made in the methods of operating the several Vanderbilt interests which will require that he be in that city more of the time than heretofore, as he will be one of an official board to dictate the policy of operation, with W. H. Newman, president of the New York Central, as its chairman. The board is to be organized to dictate the entire policy of operating the several Vanderbilt interests and to such an extent practically to merge the Lake Shore, the Nickel-plate, the Canada Southern, the Michigan Central and the Big Four under the one control. H. B. Ledyard, should be the president of the Michigan Central, although it is understood that Mr. Ledyard would gladly be relieved of even the presidency of the Michigan Central, such is his health and so great his affliction in the past few months. The advantage of such a merging of the Vanderbilt properties, which, through the Lake Shore, permanent management, Erie and Western, would be to keep intact many connecting lines and lessen the possibility of a strike in any one of them through any future management. The earnings of the Big Four, the Lake Erie and Western and the Nickel-plate in the last few months are evidence of their being so closely allied now as to lead to a strict maintenance of rates and tend to increase the value of the several properties.

Strong Points with the Monon.

The annual meeting of the stockholders of the Chicago, Indianapolis & Louisville road will be held in this city to-day and the annual report will be gratifying to the stockholders, showing that the property is in good condition financially and physically and its business steadily increasing. The current number of the New York Financialer says of Monon stock:

"The earnings of the company there is excellent reason for believing that the common stock will be placed upon a par with the preferred stock of the year. The earnings upon the stock have for some while justified a dividend upon it, but the litigation has been in progress growing out of a lease of the Beattyville road by a former management has caused the company to be in a position to pay dividends. In May, 1899, after all the testimony had been taken in the Beattyville litigation, a decision was made to the United States Circuit Court for the District of Indiana, and on final hearing the court ruled in favor of the company, and the former sale, the confirmation of which had been suspended by order of the Circuit Court, was reconfirmed. An appeal from this decision was made to the Circuit Court of Appeals for the Seventh circuit. But during the meantime, it is understood, a compromise was arrived at most favorable to the company. With this decision, the company following a liberal policy in regard to the Beattyville litigation, has been able to pay dividends. The fact that no dividend has been paid upon the common stock, is only a small delay upon the preferred, the company has been able to accumulate a handsome surplus—indeed, one of the largest of any of the smaller roads in the country."

VIEW THE MONUMENT.

It Is the Chief Point of Interest to the City's Visitors.

Probably nothing in the city of Indianapolis attracts the attention of visitors more than the soldiers' and sailors' monument. From early morning until late at night a steady stream of humanity passes the great shaft, many of the sightseers stopping to speak with wonder and admiration at what is the pride and joy of every citizen of the commonwealth. The illumination at night serves to make the shaft a chief point of interest to visitors. The monument has busy times this week and hundreds of people have availed themselves of the opportunity to get a glimpse of the city from the highest piece of architecture. Well may the State be proud of the splendid tribute to its silent victors.

JUDGE WALKER'S RULING.

IT WILL BE OF IMPORTANCE TO TRUST COMPANIES.

Made in Case of Security Trust Company Against Laura Apple—Rate—Other Cases.

Judge Walker, of the Probate department, yesterday made a ruling concerning trust companies furnishing bonds in selling property held in trust that is likely to change the entire system of trust companies serving as administrators, executors and guardians. The ruling was made in the case of the Security Trust Company, guardian of Laura Apple. The trust company filed a petition to sell real estate and the point of giving a bond was raised. Judge Walker ruled that the trust company must file a bond equal to twice the appraised value of the real estate to be sold. The company was willing to abide by the decision, but the ruling is of importance to all trust companies. The ruling was made in the case of the Security Trust Company, guardian of Laura Apple.
